

28 Nov 2023

Dear Sir/Madam

My name is Wuliang Yin, and I am a Reader in Electromagnetic Sensors and Instrumentation at the University of Manchester.

Mohamad Amierul Hakeem is an undergraduate student in Electrical and Electronic Engineering at the University of Manchester. I am supervising his ESP project from Sep 2023 to present.

In the 2nd year ESP project, he demonstrates strong independent and critical thinking and works well with his team. His academic record is outstanding, achieving 3rd best in the year.

I believe he has the quality and drive to be a successful engineer, and internship opportunity will help him pursue this goal.

I recommend him without any reservation.

If you need further information, please feel free to email me at wuliang.yin@manchester.ac.uk.

Yours sincerely

Wuliang Yin
